There were 45 people in arrears for a total of \$8790.40.

Plant is running well. No violations and we made permit.

We had to manually run the generators at the Lift Stations during the recent power outage which is why we are having them converted to automatically turn on and off during emergencies.

The flow rate is high at the plant and after investigating, it was found that the manhole at the condos on Meadow Drive is leaking again where the contractor bored into the manhole installing his tap. The contractor is to investigate this and correct the problem.

With the resignation of Kelsey Gieseler from the BPA, Travis Hartshorn was brought on board at this meeting.

With no further business, the meeting was adjourned at 6:30 PM.
